HAVERN BLACK

SOLUM

THE SINGLE MODULE HOME

HAVERN.AU

• BLACK SERIES • ANCILLARY DWELLING

SOLUM

One module. *Complete.*

so•lum

/ˈsəʊ.ləm/ • LATIN • NOUN

-
- I The ground. The floor. The base on which a thing stands.
-
- II The soil itself, and its living layer: the upper ground where roots take hold.
-

We gave the smallest home in the range the oldest word for ground. SOLUM is where HAAVN BLACK begins: a single module, set lightly on its site and made to belong to the place it stands on. Nothing added for the sake of it. Everything resolved.

Luxury is *certainty*.

A house is still built the way it was a hundred years ago. On a muddy site, by hand, one at a time. HAAVN BLACK begins from the opposite idea. The home is designed as a product, resolved completely before anything is made, then manufactured in a factory where a millimetre matters and weather does not. What arrives on site is not a frame. It is the home.

01

Resolved, not adjusted

Every junction, service and finish is settled in design. Nothing is decided later with a saw in hand, so nothing drifts.

02

Made under a roof

Modules are built in a controlled factory to tolerances a building site cannot hold, then transported complete.

03

Certain on site

Install is measured in days, not seasons. Less risk, less finance, less of the mess that makes building painful.

“

A home should feel like a deep breath.

I dreamed of a space that speaks simply, that breathes with the land around it and still belongs to the life of the city. HAAVN BLACK is that idea, carried from the first line to the last detail, so the home you walk into is exactly the home that was imagined.

Jamie Baldwin

FOUNDER • HAAVN BLACK

Nothing is lost between the *drawing* and the home.

"Simplicity is the hardest thing to build. We designed SOLUM exactly as it is made, to the millimetre, so the home that arrives is the home we drew. It works from the first day, and it never stops feeling like architecture."

Callum Fraser

Black is a *discipline.*

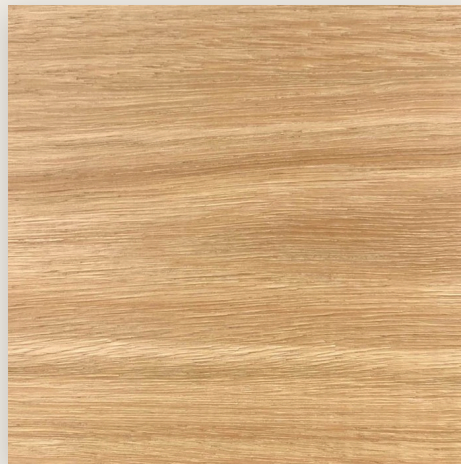

A dark, quiet envelope with warmth held inside. The palette is deliberately short: fewer materials, better ones, detailed properly. Every facade shares the same charcoal windows, flashings and trims, so the home reads as one object whichever skin it wears.

01

Yakisugi

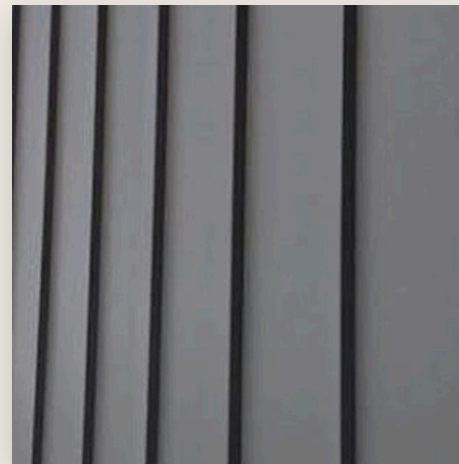

- Charcoal windows, flashings, trims
- Bronze tinted glazing

02

Blackbutt

- Charcoal windows, flashings, trims
- Bronze tinted glazing

03

Charcoal Standing Seam

- Charcoal windows, flashings, trims
- Bronze tinted glazing

04

Equitone Fibre Cement

- Charcoal windows, flashings, trims
- Silver glazing

07 • INSIDE

Timber, linen, *stone.*

Warmth held inside a dark shell. Light comes in through full height glazing and softens through sheer linen.

KITCHEN • DINING

BEDROOM

• KITCHEN • DINING • BEDROOM

Small, and *never* short of anything.

A galley kitchen along one wall with an induction cooktop, cabinets over and open shelving, fridge, pantry and dishwasher. Dining for four sits in the light at the glass. At the far end, a bedroom with a full height robe, lined in timber and dressed in linen.

• BATHROOM • FINISHES

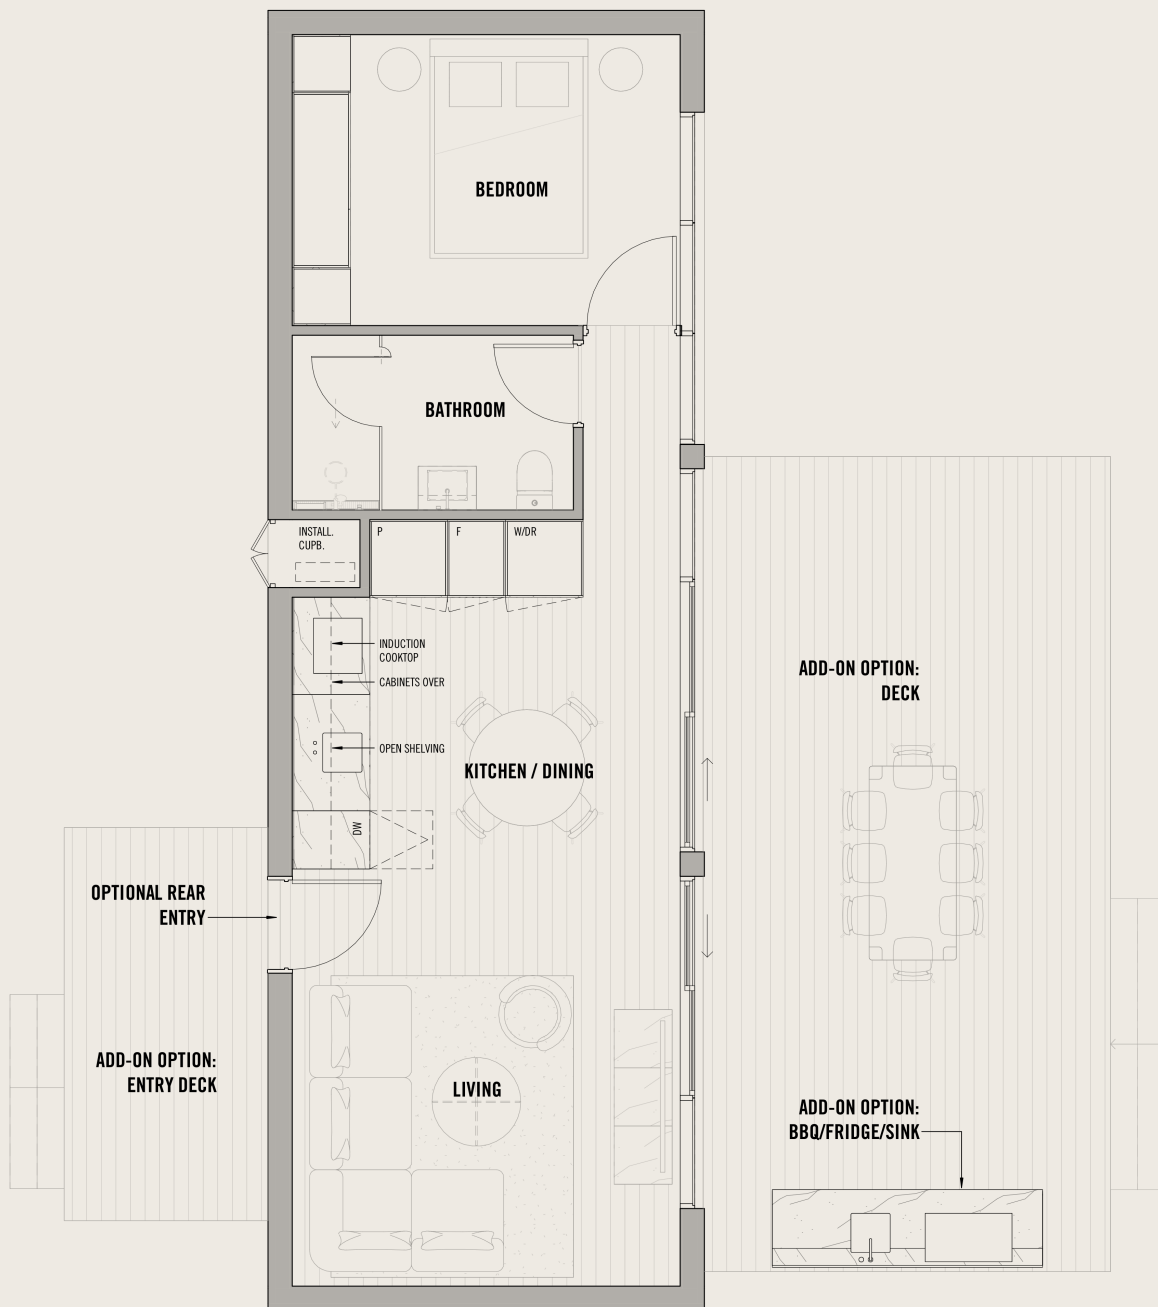

Detailed *properly.*

Stone toned tile floor to ceiling, a floating timber vanity with a stone basin, frameless glass to the shower and warm light tucked under every shelf. The same short list of materials runs through the whole home.

JOINERY	Timber veneer
BENCHTOPS	Stone
FLOORS	Timber
WET AREAS	Stone toned tile
LIGHTING	Concealed warm LED
WINDOWS	Sheer linen

ADD ON OPTIONS

A deck the length of the living rooms. An entry deck. An outdoor kitchen with barbecue, fridge and sink. A rear entry.

What *arrives.*

SOLUM is manufactured whole as one module and delivered complete. What follows is the home as designed.

FORM	A single factory finished module, 12.6 × 4.2 m on a 4.2 m structural grid, raised on posts. 13.4 × 4.5 m overall.
FACADE	Four finishes: Yakisugi charred timber, Blackbutt timber, Charcoal standing seam or Equitone fibre cement. Charcoal windows, flashings and trims throughout.
GLAZING	Full height glazing to the living, dining and bedroom. Bronze tinted, or silver with the Equitone facade.
KITCHEN	Galley kitchen with induction cooktop, cabinets over and open shelving. Fridge, pantry and dishwasher. Dining for four.
LIVING	Living room at the end of the module, opening to the deck option.
BEDROOM	Bedroom with full height robe.
BATHROOM	Shower, vanity and toilet.
SERVICES	Dedicated install cupboard.
OPTIONS	Deck, entry deck, outdoor kitchen with barbecue, fridge and sink, rear entry.

Images and specification are indicative and may change as design is finalised. Furniture, landscaping and styling are shown for illustration and are not included. The Blackbutt facade is shown as a visualisation. Final specification is confirmed at contract. Design by Fraser & Partners for HAAVN.
