

A compact home, opening to the view.

35 m2

NOMINAL GROSS FOOTPRINT

3.5 x 10 m

STUDIO BODY

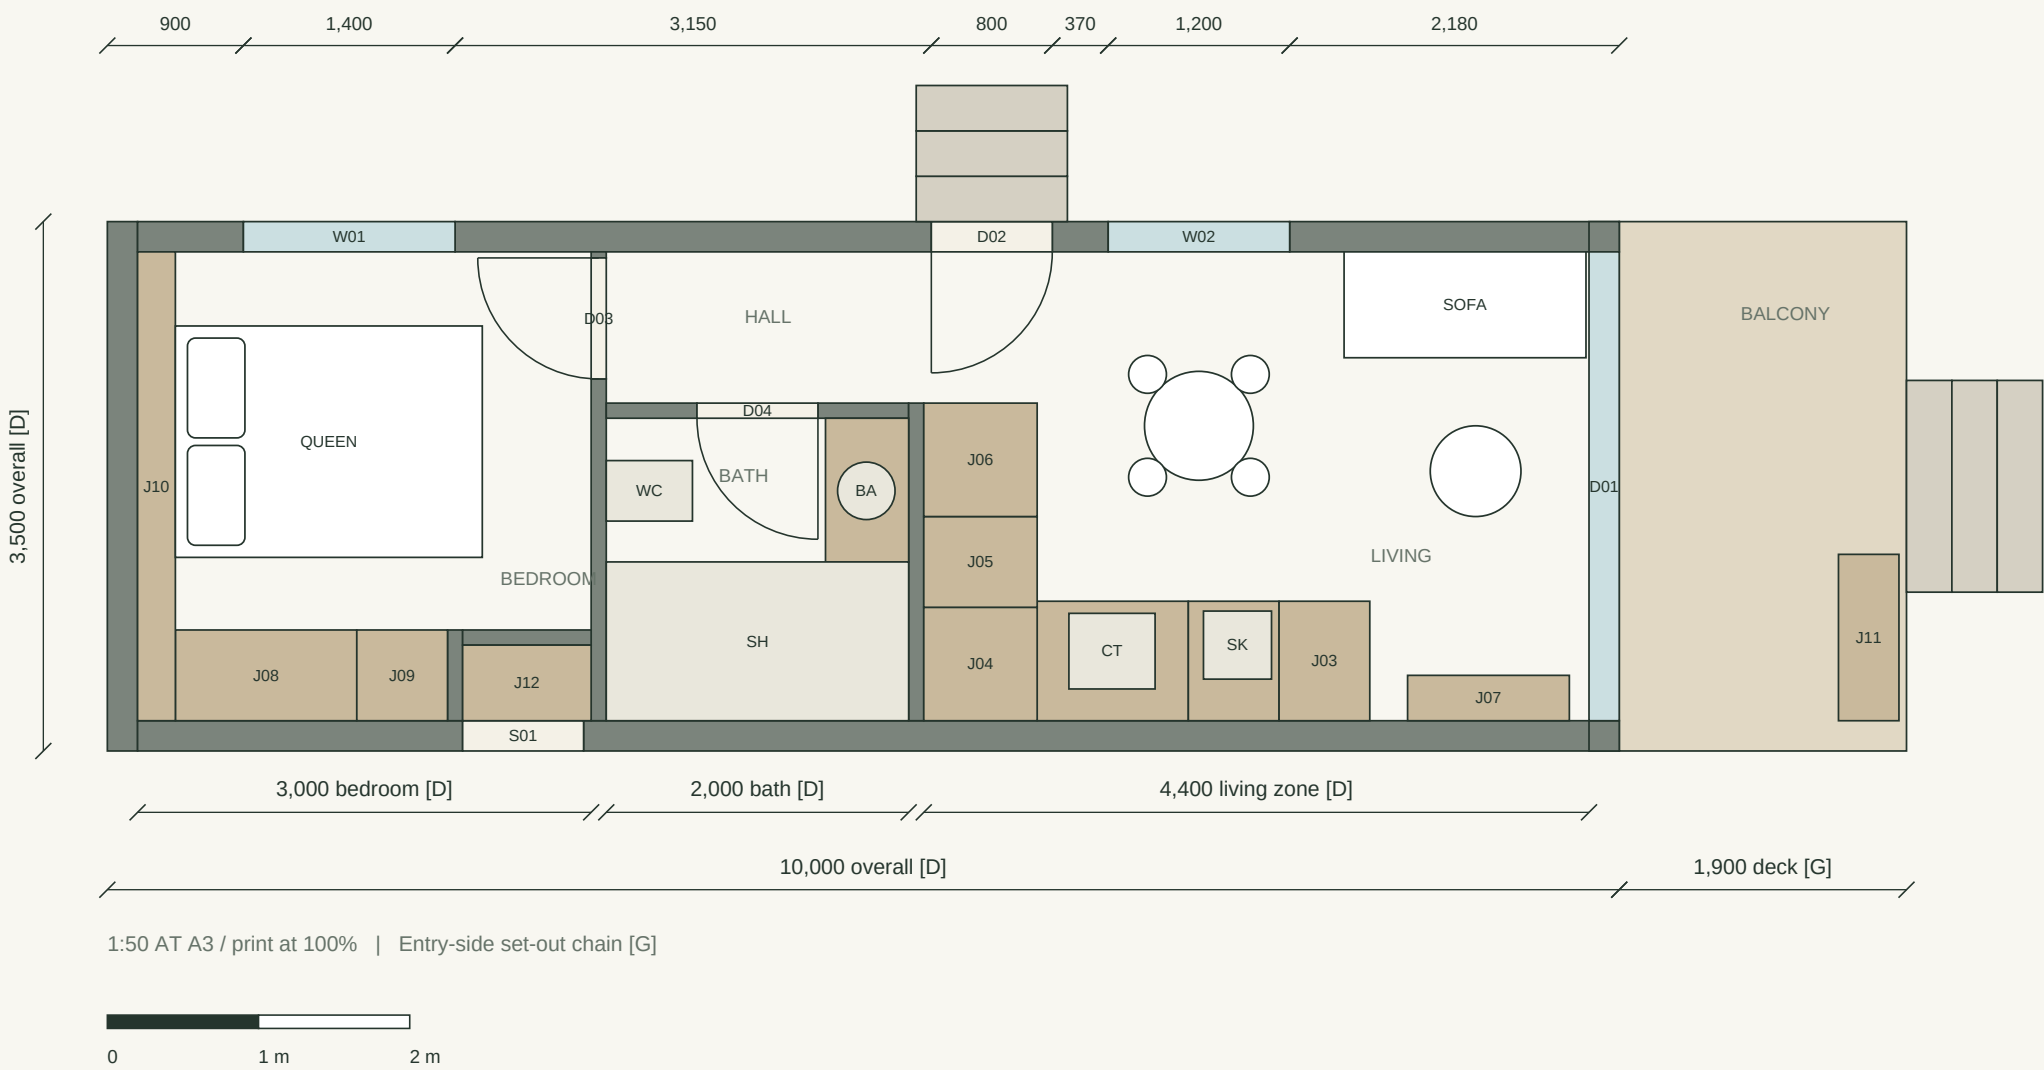

3.5 x 1.9 m

FRONT BALCONY

Living opens to the short front balcony. A separate solid-black side entry leads to the hall, with the bedroom at the rear and bathroom in the middle.

This booklet records the Studio design and finish options. The 3D views explain the spaces; the supplied source plan and manufacturer coordination set record nominal dimensions and items still to confirm.

The Studio plan.

- 01 / Bedroom**

Queen bed with the head against the rear wall, wardrobe and open shelves to the left, full-height window to the entry side.
- 02 / Bathroom**

Central bathroom entered from the hall. Shower beyond, vanity to the left and WC to the right when looking in.
- 03 / Living + kitchen**

Kitchen along the left wall with tall storage behind. Sofa faces the wall-mounted TV joinery. Dining sits beside the side window.
- 04 / Balcony**

3.5 m wide across the living front, with outdoor dining, BBQ joinery and rough stone entrance steps.

Dimensions are nominal design values. Source overall footprint is 35.0 m2. Balcony geometry gives 6.65 m2. The earlier source internal-area statement requires reconciliation; it is not presented here as a confirmed saleable area.

The entry and the front living balcony.

FRONT LIVING BALCONY

Full-height front glazing, a 3.5 m wide balcony and stone steps. Small chrome SOLUM lettering belongs on the upper-left of the entry-side face, with final size to be set out.

SOLID-BLACK SIDE ENTRY

Full-height bedroom and dining windows remain at their source positions. The roof edge is raised by 300 mm while the glazing line stays fixed. Timber continues to the top without a horizontal break.

Choose charred narrow timber, Blackbutt, smooth black standing-seam metal, or light concrete-look fibre-cement panels. Exterior illustrations are spatial model views; the included marketing references show the intended finish character.
